

Amendments to the Claims:

This listing of claims replaces all prior versions and listings of claims in the application:

Listing of Claims:

1. (Previously presented) A method comprising:
presenting an interactive, graphical depiction of a form through a computer network and allowing for selection of a desired location on the form, wherein the form is a document with one or more areas for insertion of information;
receiving a request for information relating to a location on the form selected by a user, the selection and the request being made through interaction with the graphical depiction of the form; and
delivering information to the user through the network in response to the request, wherein the delivered information includes at least one of the following relating to the selected form location: planning information, consulting materials, research, and compliance information.
2. (Currently amended) The method of claim 1 including:
receiving a second request for additional information relating to a second selected location on the form selected by the user through another interaction by the user with the graphical depiction of the form; and
delivering the additional information to the user through the network, wherein the additional information includes at least one of the following relating to the second selected form location: planning information, consulting materials, research or compliance information.
3. (Original) The method of claim 1 wherein the form comprises a tax form.
4. (Original) The method of claim 1 wherein the selected form location corresponds to a section of the form identified by an alphanumeric designation.

5. (Original) The method of claim 1 including:
retrieving, from a database, ideas that are linked to the selected form location; and
delivering the ideas to the user through the network.
6. (Original) The method of claim 5 including providing to the user a list of
hyperlinks for information from third-parties that relates to the selected form location.
7. (Currently amended) The method of claim 6 wherein at least one of the
hyperlinks provides access to pages that are pre-populated with the information relating to the
selected form location.
8. (Original) The method of claim 6 wherein at least one of the hyperlinks provides
access to information from subscription-based services.
9. (Currently amended) The method of claim 6 wherein at least one of the
hyperlinks provides access to pages created based on a search of further information contained in
the ideas.
10. (Currently amended) The method of claim 6 including:
receiving an indication of the user's selection of a hyperlink in the list;
authenticating the user to a third-party site associated with the selected hyperlink
in a manner that is transparent to the user; and
providing to the user additional information relating to the selected form location,
wherein the provided additional information is obtained from the third-party site.

11-16. (Canceled)

17. (Previously presented) An apparatus comprising:
 - a computer network;
 - a user device coupled to the network, the user device including a display;
 - one or more servers coupled to the network to:
 - present on the display, via the computer network, an interactive, graphical depiction of a form, wherein the form is a document with one or more areas for insertion of information; and
 - deliver information to the user device through the network,
 - wherein the information is delivered in response to receiving a request for information relating to a location on the form selected by a user, the selection and the request being made through interaction with the graphical depiction of the form, and
 - wherein the delivered information includes at least one of the following relating to the selected form location: planning information, consulting materials, research and compliance information.
18. (Original) The apparatus of claim 17 including a database, wherein the one or more servers are configured to retrieve from the database ideas that are linked to the selected form location, and to deliver the ideas to the user device through the network.
19. (Original) The apparatus of claim 17 wherein the form comprises a tax form.
20. (Original) The apparatus of claim 17 wherein the selected form location corresponds to a section of the form identified by an alphanumeric designation.
21. (Previously presented) The apparatus of claim 18 wherein the one or more servers are configured to provide to the user device, in response to the request, a list of hyperlinks for information from third-parties that relates to the selected form location.

22. (Currently amended) The apparatus claim 21 wherein at least one of the hyperlinks provides access to pages that are pre-populated with the information relating to the selected form location.

23. (Currently amended) The apparatus of claim 21 wherein at least one of the hyperlinks provides access to pages created based on a search of further information contained in the ideas.

24. (Original) The apparatus of claim 21 wherein at least one of the hyperlinks provides access to information from subscription-based services.

25. (Currently amended) The apparatus of claim 21 wherein the one or more servers are configured to:

authenticate the user to a third-party site associated with a selected hyperlink in a manner that is transparent to the user in response to receiving an indication of the user's selection of a hyperlink in the list; and

provide to the user additional information relating to the selected form location, wherein the additional provided information is obtained from the third-party site.

26-31. (Canceled)

32. (Previously presented) An article comprising a machine-readable medium storing machine-executable instructions that, when applied to a machine, cause the machine to:

present an interactive, graphical depiction of a form through a computer network and allow a user to select a desired location on the form, wherein the form is a document with one or more areas for insertion of information; and

deliver information to the user through the network,

wherein the information is delivered in response to receiving a request for information relating to a location on the form selected by the user, the selection and the request being made through interaction with the graphical depiction of the form, and

wherein the delivered information includes at least one of the following relating to the selected form location: planning information, consulting materials, research and compliance information.

33. (Original) The article of claim 32 wherein the form comprises a tax form.
34. (Original) The article of claim 32 wherein the selected form location corresponds to a section of the form identified by an alphanumeric designation.
35. (Original) The article of claim 32 including instructions that, when applied to the machine, cause the machine to:
retrieve, from a database, ideas that are linked to the selected form location; and
deliver the ideas to the user through the network.
36. (Original) The article of claim 35, including instructions that, when applied to the machine, cause the machine to:
provide to the user a list of hyperlinks for information from third-parties that relates to the selected form location.
37. (Currently amended) The article of claim 36 wherein at least one of the hyperlinks provides access to pages that are pre-populated with the information relating to the selected form location.
38. (Previously presented) The article of claim 36 wherein at least one of the hyperlinks provides access to pages created based on a search of the information contained in the ideas.
39. (Original) The article of claim 36 wherein at least one of the hyperlinks provides access to information from subscription-based services.

40. (Original) The article of claim 32 including instructions that, when applied to the machine, cause the machine to:

authenticate the user to a third-party site associated with the selected hyperlink in a manner that is transparent to the user in response to receiving an indication of the user's selection of a hyperlink in the list; and

provide to the user additional information relating to the selected form location, wherein the additional provided information is obtained from the third-party site.

41-67. (Canceled)
